

## BAREFOOT AT HAVELOCK

Located on a very exotic and unique destination, Barefoot Resorts at Havelock, The Andamans is as rustic as it can get. Here tall trees, white sands and a tropical forest welcome you. From the accommodation to some of the dishes that our chefs have put together for you everything has been inspired by the destination that we take so much pride in. Our concern for the destination and its inhabitants has ensured that we have left a lot in what we offer to our guests untouched so that they don't disturb the local life that have existed there much before we ourselves came here.

*total inventory*    31 ROOMS
